EVENT'S SUMMARY

I had always wondered as to what is the most ideal way to go about a fire? What if fire is caught in a building with residents, especially in NLIU? Are we capable enough to deal with fire in case of a fire mishap? The dilemma of these questions is what made me to think of conducting a fire drill in our institution.

The fact that we are living amidst a forested area, with little to no connection with the main city, coupled with heavy voltage appliance usage in the university campus, makes us more susceptible to fire accidents. Under these circumstances, it is inevitable that we are equipped with not only fire fighting equipment in our campus but also well versed with the skillset required to deal with fire accidents. In light of the same, I requested Shri Vineet Kapoor, DCP Headquarter, Bhopal Police Commissionerate to arrange under his vision of "community policing" a fire drill session for the residents of NLIU. In pursuance to this and on his efforts, the Fire Services department of Madhya Pradesh Police got agreed to conduct a fire drill and training session exclusively for the students, teachers and staff of NLIU, Bhopal. The drill was scheduled to take place on 28th April, 2022 near the Sports Complex of NLIU between 4-5 pm.

After all law school cannot only be about, rules and regulations, but also about learning critical life lessons. With this thought in mind, I initiated this program and am extremely thankful to the entire student, faculty and staff body of NLIU who participated in the fire drill and training session. My sincere thanks also goes to Hon'ble Vice Chancellor sir, Registrar Sir and other officials in the administration who agreed to this proposal and made this possible.

Hopefully, this would have turned out to be a successful session and we are able to impart some valuable skills on fire preparedness to the members of NLIU family.

NLIU students learn safety tips from MP Police Fire Deptt

■ Staff Reporter

NLIU Bhopal organised a fire safety drill for its students and staff in collaboration with MP Police Fire Service Department on Thursday. The program was conducted in the presence of Vice Chancellor, NLIU, Professor (Dr) V Vijaykumar, Registrar, NLIU Professor (Dr) Ghayur Alam and Inspector Bhopal Police Ashish Bhattacharya. The Fire Service team led by Sub-Inspector R K Mishra demonstrated the drill.

Jaspal Sharma, a member of the team conducted training session and explained about various disastrous situations that can occur and what steps should be taken in such situations. Demonstrations were made on how to use fire extinguisher and how to rescue people in situations of extreme smoke all around. National Building Code, 2016 was also discussed which details what

Students of NLIU Bhopal getting clicked with MP Police Fire Service Department personnel post-drill in Bhopal on Thursday.

fire safety measures are needed for each type of buildings in India. Students also got to know about various myths like how water is not the best alternative to extinguisher. It was particularly emphasised upon that various teams like fire awareness team, fire fighting team, first aid team etc should be made the moment a fire breaks so that severity of fire

can be immediately controlled.

Various types of extinguishers were explained to the audience and the audience including the students, staffs and faculties were also given the opportunity to try the fire extinguisher. The team also explained do's and the don'ts that people should follow in fire situations. He told the audience that unlike what is com-

monly believed that an LPG cylinder catches fire via pipe and explodes, it mostly explodes because surrounding temperature increases and the petroleum gas inside the cylinder becomes gas and expands 1600 times. Thus, an efficient way to avoid LPG cylinder blast is to pour water on the outer surface and prevent the temperature from rising up.

Police Fire Services, NLIU conduct fire drill

Friday, 29 April 2022 | Staff Reporter | Bhopal

NLIU in collaboration with MP Police Fire Service Department organized a Fire Safety drill on Thursday.

NLIU Bhopal has organized a fire safety drill for its students and staff in collaboration with MP Police Fire Service department. The programme was conducted in the presence of Prof. V. Vijaykumar Vice Chancellor, NLIU, Prof. Ghayur Alam Registrar, NLIU and Ashish Bhattacharya, Inspector Bhopal Police.

The Fire Service team led by Sub-Inspector R. K. Mishra demonstrated the drill. Jaspal Sharma, a member of the team conducted the training session and explained about various disastrous situations that can occur and what steps should be taken in such situations.

Demonstrations were made on how to use the fire extinguisher and how to rescue people out in situations of extreme smoke all around. The National Building Code, 2016 was also discussed which details what fire safety measures are needed for each type of buildings in India. The students also got to know about various myths like how water is not the best alternative to extinguisher. It was particularly emphasized upon that various teams like fire awareness team, fire fighting team, first aid team should be made the moment a fire breaks so that the severity of the fire can be immediately controlled.

Various types of extinguishers were explained to the audience and the audience including the students, staffs and faculties were also given the opportunity to try the fire extinguisher.

The team also explained the do's and the do not's that people should follow in fire situations. Thus, an efficient way to avoid LPG cylinder blast is to pour water on the outer surface and prevent the temperature from rising up.

The Fire Team also advised the audience about precautions. The Fire Team also organized demonstrations on how the fire fighters fight fire. The explanations and demonstrations were very educational for the students and staff members of NLIU and they feel confident and equipped for tackling the basic fire situations. The event was organized by the Student Coordinator Himanshu Dixit, a final year student of NLIU.

पुलिस अग्नि शमन सेवा विभाग ने की लॉ यूनिवर्सिटी में ड्रिल

रिपोर्टर • IamBhopal

Mobile no. 9827080406

नेशनल लॉ इंस्टीट्यूट यूनिवर्सिटी (एनएलआईयू) ने मप्र पुलिस अग्निशमन सेवा विभाग के साथ छात्रों और कर्मचारियों के लिए अग्नि सुरक्षा ड्रिल का आयोजन किया। अग्निशमन सेवा विभाग का नेतृत्व सब-इंस्पेक्टर आरके मिश्रा ने किया। कार्यक्रम के दौरान एनएलआईयू कुलपति प्रो.(डॉ) वी. विजयकुमार, रजिस्ट्रार प्रो.(डॉ) गयुर आलम एवं आशीष भट्टाचार्य उपस्थित

रहे। आग लगने पर विभिन्न टीमों जैसे अग्नि जागरूकता टीम, अग्निशमन दल, प्राथमिक चिकित्सा दल आदि को बनाया जाना चाहिए, ताकि आग की गंभीरता को तुरंत नियंत्रित किया जा सके। यह भी सलाह दी कि यदि कोई व्यक्ति कभी किसी इमारत में फंसा जाता है और उन्हें पहली या दूसरी मंजिल से कूदने की आवश्यकता होती है, तो उनका लक्ष्य पैरों पर कूदना नहीं होना चाहिए क्योंकि इससे रीढ़ की हड्डी को गंभीर नुकसान होगा, बल्कि हैंड एंड रोल तकनीक का इस्तेमाल करना चाहिए।

Fire Drill and Training Session

The Drill and Training Session shall be conducted by M.P. Fire Services Department and shall include

- Evacuation Drill
- Fire Prevention
- Emergency Preparedness

Venue: Near Sports Complex, NLIU Bhopal

Date: 28th April, 2022 | Timing: 4 pm

PICTURES OF THE EVENT

ANNEXURE 1

THE LETTER URGING FOR THE CONDUCT OF THE FIRE DRILL

The Vice Chancellor/Registrar
The National Law Institute University Bhopal
Madhya Pradesh, India

Date: 18th April, 2022

Sir,

Subject: Request for arranging a Fire Drill Demo in our University by the District Fire Services for sensitisation purposes.

We are writing this application to request you to arrange for students a Fire Drill Demo in the University by District Fire Officer and his team on any date.

A fire drill, in this context, is referred as a method of practicing how a building would be evacuated by the civilians in the event of a fire or other emergencies. Usually in a Fire Drill, the District Fire Officer or his appointed officer comes to the venue for sometime in a day and create awareness among the students about firefighting techniques and the ways to respond swiftly in times of such emergency situations.

For a university with over 650 students physically present on campus, skills such as fire escape, safety and the procedures to use fire extinguishers becomes inevitable. The Part 4 of the National Building Code (NBC) of India, 2016 titled 'Fire and Life Safety' covers the requirements for fire prevention, life safety in relation to fire, and fire protection of buildings. It also mentions about the importance of conducting fire drill demos for the sensitisation purposes. As public awareness for prevention of fire is important and therefore, the Standing Fire Advisory Committee (constituted by the Ministry of Home Affairs) once recommended that the public awareness programme should be organised, which may include propaganda in schools and colleges, exhibition of slides and films in cinema houses etc.

Several schools and colleges across the country including NLUs, IITs and IIMs occasionally conduct this sort of fire escape training to impart to their students the skills that are necessary. Therefore, considering the importance of the same, we request you to please arrange for the conducting of Fire Drill Demo in our University by coordinating with the district fire service

officials. For the above drill demo, we are readily available to extend all possible help and assistance to you.

Thanks,

Yours Sincerely,

The Team of students comprising

Himanshu Dixit, (Final year BALLB(Hons) student)

Himanshi Mahajan (Fourth year BALLB(Hons) student)

Tisa Padhy (Second year BALLB(Hons) student)

ANNEXURE 2

**BASIS THE REQUEST MENTIONED IN ANNEXURE 1, NLIU SENT A LETTER TO
DCP HQ, BHOPAL FOR ORGANISING THE PROGRAM**

NATIONAL LAW INSTITUTE UNIVERSITY
Kerwa Dam Road, Bhopal 462044

Ravi Pande
Assistant Registrar

Tel. No. (0755)- 2696965 (O) Ext. 104

Ref. No. 1812 NLIUB

Date: 21-4-2022

To

Shri Vineet Kapoor,
Deputy Commissioner of Police,
Police Headquarters,
Bhopal Police Commissionerate

Subject: Conducting of Fire Drill in National Law Institute University, Bhopal.

Respected Sir,

With reference to subject cited, we are writing this application requesting you to conduct Fire Drill in our University. We are a University with over 700 students physically present on campus. For such a large residential population in the University, skills such as fire escape and fire safety techniques become inevitable. The University requires working of various high voltage devices and electrical equipment making it highly susceptible to fire mishaps. Further, the location of the University is very isolated and amidst the forest which heightens the risk involved in such cases. Given this, we believe that fire escape and safety training is must in our University involving so many students and staff and we wish the people of University to be equipped with such an important skill.

In light of the above, we request you to kindly visit and conduct Fire Drill in the University in the next week of this month for our students and staff and train them to be well versed with Fire escape and safety techniques.

With warm regards,

Your sincerely,

(Ravi Pande)
